Back to Work Safely: Guidelines and Training

Presented by The Maryland Center for Hospitality Training (MCHT)

Developed by DuPont Sustainable Solutions

As many states are easing their shelter-in-place orders, organizations are assessing their post-COVID-19 plans to re-opening their businesses. How do we ensure that our organization minimizes risk and maintain our employees safe work practices?

Our Webinars are intended to prepare all employees from every position or level with a set of guidelines and safe work practices following the COVID-19 pandemic workforce lockdown.

Webinars will be led by nationally recognized facilitators such as the esteemed Sandra L. White, Ph.D., Professor Emeritus and Founding Director, Center for Science, Math and Technology Education, North Carolina Central University, Durham, NC. The training would be available live or taped. We will offer bilingual translations in English and Spanish.

At the conclusion of each Webinar, attendees will receive a certificate of completion for this 2-hour workshop.
